Dear Commissioners,

We live in Sun City West, Arizona and are extremely upset by the ridiculously high rate increase requested by AZ/AM Water. We are retired on a fixed income and do not have any extra income to pay an increase of 79.96% in water rates.

Please protect us by drastically slashing the rate increase you allow AZ/AM Water to have. AZ/AM Water is asking for a 500% increase in operating income at a time when we and the entire country is suffering from financial problems. Your assistance will be greatly appreciated by us and all of the residents in Sun City West.

Sincerely,

Dear Commissioners,

We reside in Sun City West, Arizona and are disgusted by the ridiculously high rate increase requested by AZ/AM Water. We are retired people on a fixed income and do not have any extra income to pay an increase of 79.96% in water rates. A rate increase inline with the cost of living maybe acceptable.

Please review the AZ/AM Water plan and protect us by drastically slashing the rate increase you allow AZ/Am Water to have. AZ/Am Water is asking for a 500% increase in operating income at a time when we and the entire country is in a financial mess. AZ/Am Water in the past appears to have increased the rates since our water bill is increasing. There is no reason for AZ/Am Water to increase the rates to obtain a 8.4% return on a senior village on fixed income. Your assistance will be greatly appreciated by us and all of the residents in Sun City West.

Dear Commissioners,

As Sun City West, Arizona residents, we are concerned by the high rate increase requested by AZ/AM Water and appreciate any help you can give us to keep the rate increase at a more reasonable level.

There must be many alternatives to solving the water company's financial problems. We often see water running down the streets from overwatering of residents' landscaping. . Perhaps it would be more prudent to add a small increase for the first 4,000 gallons of water used each month and charging a higher fee for any usage above that amount. That way the people with less concern of wasting water would pay the extra or realize the value of saving our natural resources for future generations.

We appreciate your understanding of our concerns and thank you for any help you can give us.

Sincerely,

Dear Commissioners,

We live in Sun City West, Arizona, and are appalled by the ridiculously high rate increase requested by AZ/AM Water. We are retired on a fixed income and do not have any extra income to pay an increase of 79.96% in water rates. This is as immoral as the Federal spending on the Bailout and the Stimulus Bills. How can anyone in these times justify such an increase? 3-5% increase is more than enough and probably too much given the times.

Dear Commissioners,

I own a home in Sun City West, Arizona, in which my elderly father currently lives. Since I pay his bills, I have watched his expenses increase over the years. Of all of his expenses, the Arizona American Water Bill seems to be the biggest rip-off of them all, and now they want another increase.

I am writing you again to ask that you put a stop to the gouging that Arizona American is doing to the residents of Sun City West. An increase of 79.96% cannot be described in any other way. Even the 59% increase recommended by RUCO is ridiculous.

Arizona American says that they need this increase to pay for the significant capital improvements they have made to Sun City West. I say what improvements. I have not seen any improvements, and if they did make some, who said they were necessary. It seems to me that they can generate work for themselves whenever they want, and ask other people to pay for it.

I also believe that this company has deliberately structured its billing to extract the maximum out of their customers. Nobody has justified why they are allowed to bill a flat fee for treating wastewater, let alone charging \$25.01 to treat 3,000 gallons of it. This comes to \$8.33 per 1,000 gallons. My research shows that well run companies charge between \$2 - \$3 per 1,000 gallons to treat wastewater. The flat fee billing also gives the homeowner no incentive to conserve water. In fact it appears that a homeowner would still owe Arizona American about \$30 - \$35 a month even if they did not use any water at all.

The residents of Sun City West have no one to turn to except the Arizona Corporation Commission. I am therefore asking you to not only deny this increase, but to require Arizona American to restructure their Billing so that wastewater charges are based on the amount of water used. Our President has said that we are in for a long serious recession, and that we must all make sacrifices. I do not remember him saying that Arizona American did not have to make sacrifices as well. Your help in this matter will be greatly appreciated.

Dear Commissioners:

I am a resident in Sun City West, Arizona and am appalled by the exorbitant rate increase requested by Arizona American Water Company (AAWC). As a retired person on a fixed income, it is unconscionable for AAWC to expect me or anyone in this retirement community to pay an increase of 79.95% in water rates.

I am asking the Commission to defend me in this matter by disallowing this proposed increase. I do not understand how AAWC can ask for a 500% increase in operating income at a time when the entire country is in a financial crisis. Perhaps AAWC should be asking for a bailout from the Federal Government or even better, reorganizing its management force and reducing salaries and personnel like other companies are already doing.

I would appreciate your serious consideration of this request, as I'm sure the rest of this community would, also.

Thank you.

Sincerely,

Justine Kmiecik
